Alexandria, VA 22313-1450

Dear Sir:

The United States of America as represented by the Secretary of the Army, the owner of the entire interest in U.S. Application Serial No. 09/611,419 filed on July 6, 2000 for RECOMBINANT VACCINE AGAINST BOTULINUM NEUROTOXIN, hereby disclaims,

except as provided below, the terminal part of the term of any patent granted on the above-captioned application Serial No. 09/611,419 that would extend beyond the expiration date of commonly owned U.S. Patent No. 6,495,143, and hereby agrees that any patent so granted on the above-captioned application shall be enforceable only for and during such period that the legal title to such patent so granted shall be the same as the legal title to U.S. Patent No. 6,495,143.

In making the above disclaimer, the owner does not disclaim the terminal part of any patent granted on the above-captioned application that would extend beyond the expiration date of U.S. Patent No. 6,495,143, in the event that U.S. Patent No. 6,495,143 later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR § 1.321, has all claims canceled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

The undersigned has the authority to execute this Terminal Disclaimer on behalf of The United States of America as represented by the Secretary of the Army, has reviewed the above-referenced assignment, and hereby certifies that, to the best of her knowledge and belief, title is in the assignee on whose behalf this terminal disclaimer is being filed. This agreement shall run with any patent granted on the above-identified application and shall be binding upon the assignee, its successors or assigns.

Respectfully submitted,

BAKER BOTTS, L.L.P.

ASSIGNMENT OF INVENTION

For use of this form, see AR 27-60; the proponent agency is OTJAG

Title of Invention: RECOMBINANT VACCINE AGAINST BOTULINUM NEUROTOXINInventor(s) Leonard Smith; Michael Byrne; John Middlebrook; Hugh LaPenotiere; Michael Clayton; and*Application Serial No.: 09/611,419

Douglas Brown

*Date Oath Executed: 6Feb01; 16Feb01; 14Feb01;
13Feb01; 12Feb01; *Filing Date: July 6, 2000
8Feb01

(*Data not known at execution may be added for better identification.)

I (We), the undersigned inventor(s), in consideration of the rights of the Government of the United States acquired by virtue of the circumstances under which the above-entitled invention was made, hereby:

1. Assign to the Government of the United States, as represented by the Secretary of the Army, the entire right, title and interest throughout the United States, its Territories, Possessions, and Puerto Rico, in and to the above-entitled invention and application for patent and all Letters Patent issuing thereon, and any continuation, continuation-in-part or division of said application and any reissue or extension of said Letters Patent.

2. Agree to assign to the Government upon its request, title and interest in the invention in those foreign countries in which the Government, within eight months of the filing of the United States application for patent, determines to cause an application to be filed; provided that if the Government determines not to cause an application to be filed in any particular foreign country or fails to make such a determination, within the said eight months, all right, title and interest in the invention in such foreign country shall remain in me (us), subject to a nonexclusive, irrevocable, royalty-free license to the Government in any patent which may issue on the invention in such foreign country, including the power to issue sublicenses for use in behalf of the Government and/or furtherance of the foreign policies of the Government.

3. Agree to provide any further information within my (our) knowledge and to execute any further documents necessary to the prosecution of patent applications on the invention, the prosecution and settlement of interferences and recording of title to patent applications and patents issuing thereon.
